Compliant system

ECOCERT CANADA confirms that it has controlled your activities for the production period 2024 and that your organic system complies with the requirements of the Canada Organic Standard (CAN CGSB 32.310 et CAN CGSB 32.311).

Due to the lack of product for this production period, no certificate will be issued.

You remain eligible to the organic certification for the next production period. You must be controlled again during the next production period. An Organic Product Certificate could be issued following this control and the resolution of non conformities.
